Smile and Stay Safe Poster

Current Legislation

Our e-Safety Policy has been written by the school, building on the Hertfordshire Grid for Learning exemplar policy (with acknowledgement to LGfL, SWGfL and Bristol City Council) and Becta guidance.

Introduction

ICT in the 21st Century is seen as an essential resource to support learning and teaching, as well as playing an important role in the everyday lives of children, young people and adults. Consequently, schools need to build in the use of these technologies in order to arm our young people with the skills to access life-long learning and employment.

Information and Communications Technology covers a wide range of resources including; web-based and mobile learning. It is also important to recognise the constant and fast paced evolution of ICT within our society as a whole. Currently the internet technologies children and young people are using both inside and outside of the classroom include:

- Websites
- Learning Platforms and Virtual Learning Environments
- Email and Instant Messaging
- Chat Rooms and Social Networking
- Blogs and Wikis
- Podcasting
- Video Broadcasting
- Music Downloading
- Gaming
- Mobile/ Smart phones with text, video and/ or web functionality
- Other mobile devices with web functionality

Whilst exciting and beneficial both in and out of the context of education, much ICT, particularly web-based resources, are not consistently policed. All users need to be aware of the range of risks associated with the use of these Internet technologies.

At Adeyfield School we understand the responsibility to educate our pupils on eSafety issues; teaching them the appropriate behaviours and critical thinking skills to enable them to remain both safe and legal when using the internet and related technologies, in and beyond the context of the classroom.

Both this policy and the Acceptable Use Agreement (for all staff, governors, visitors and pupils) are inclusive of both fixed and mobile internet; technologies provided by the school (such as PCs, laptops, personal digital assistants (PDAs), tablets, webcams, whiteboards, voting systems, digital video equipment, etc); and technologies owned by pupils and staff, but brought onto school premises (such as laptops, mobile phones, camera phones, PDAs and portable media players, etc).

Roles and Responsibilities

As eSafety is an important aspect of strategic leadership within the school, the Head and governors have ultimate responsibility to ensure that the policy and practices are embedded and monitored. The named eSafety co-ordinator in our school is Georgina Singh Harwood who has been designated this role as a member of the senior leadership team. All members of the school community have been made aware of who holds this post. It is the role of the eSafety co-ordinator to keep abreast of current issues and guidance through organisations such as Herts LA, Becta, CEOP (Child Exploitation and Online Protection) and Childnet.

Senior Management and Governors are updated by the Head/ eSafety co-ordinator and all governors have an understanding of the issues and strategies at our school in relation to local and national guidelines and advice.

This policy, supported by the school's acceptable use agreements for staff, governors, visitors and pupils (appendices), is to protect the interests and safety of the whole school community. It is linked to the following mandatory school policies: child protection, health and safety, home-school agreements, and behaviour/pupil discipline (including the anti-bullying) policy and PHSE.

eSafety skills development for staff

- Our staff receive regular information and training on eSafety issues in the form of staff inset and training material
- Details of the ongoing staff training programme is available from Karen Howard, Deputy Head Teacher responsible for CPD
- New staff receive information on the school's acceptable use policy as part of their induction.
- All staff have been made aware of individual responsibilities relating to the safeguarding of children within the context of eSafety and know what to do in the event of misuse of technology by any member of the school community (see attached flowchart.)
- All staff are encouraged to incorporate eSafety activities and awareness within their curriculum areas.

Managing the school eSafety messages

- We endeavour to embed eSafety messages across the curriculum whenever the internet and/or related technologies are used.
- Acceptable use policies and messages on e-safety will be introduced to pupils regularly.
- E-safety posters will be prominently displayed.

eSafety in the Curriculum

ICT and online resources are increasingly used across the curriculum. We believe it is essential for eSafety guidance to be given to the pupils on a regular and meaningful basis. eSafety is embedded within our curriculum and we continually look for new opportunities to promote eSafety.

- The school has a framework for teaching internet skills in ICT.

- The school provides opportunities within a range of curriculum areas to teach about eSafety.
- Educating pupils on the dangers of technologies that maybe encountered outside school is done informally when opportunities arise and as part of the eSafety curriculum.
- Pupils are aware of the relevant legislation when using the internet such as data protection and intellectual property which may limit what they want to do but also serves to protect them.
- Pupils are taught about copyright and respecting other people's information, images, etc through discussion, modelling and activities.
- Pupils are aware of the impact of online bullying and know how to seek help if they are affected by these issues. Pupils are also aware of where to seek advice or help if they experience problems when using the internet and related technologies; i.e. parent/ carer, teacher/ trusted staff member, or an organisation such as Childline/ CEOP report abuse button.
- Pupils are taught to critically evaluate materials and learn good searching skills through cross curricular teacher models, discussions and via the ICT curriculum

Password Security

Password security is essential for staff, particularly as they are able to access and use pupil data. Staff are expected to have secure passwords which are not shared with anyone. The pupils are expected to keep their passwords secret and not to share with others, particularly their friends. Staff and pupils are regularly reminded of the need for password security.

- All users read and sign an Acceptable Use Agreement to demonstrate that they have understood the school's e-safety Policy.
- Users are provided with an individual network, email and Learning Platform log-in username. From Year 7 they are also expected to use a personal password and keep it private.
- Pupils are not allowed to deliberately access on-line materials or files on the school network, of their peers, teachers or others.
- If you think your password may have been compromised or someone else has become aware of your password report this to Lorraine Redford / Sue Alford
- Staff are aware of their individual responsibilities to protect the security and confidentiality of school networks, MIS systems and/or Learning Platform, including ensuring that passwords are not shared and are changed periodically. Individual staff users must also make sure that workstations are not left unattended and are locked.
- Due consideration should be given when logging into the Learning Platform to the browser/cache options (shared or private computer)
- In our school, all ICT password policies* are the responsibility of the network manager and all staff and pupils are expected to comply with the policies at all times.

* A password should be at least six characters, include uppercase and lower case letters and contain at least one number. It is recommended that passwords are changed periodically.

Data Security

The accessing and appropriate use of school data is something that the school takes very seriously. The school follows Becta guidelines (published Autumn 2008)

- Staff are aware of their responsibility when accessing school data. Level of access is determined by Scott Martin
- Data can only be accessed and used on school computers or laptops. Staff are aware they must not use their personal devices for accessing any school/ children/ pupil data

Managing the Internet

The internet is an open communication medium, available to all, at all times. Anyone can view information, send messages, discuss ideas and publish material which makes it both an invaluable resource for education, business and social interaction, as well as a potential risk to young and vulnerable people. All use of the **Hertfordshire Grid for Learning** (HGfL) is logged and the logs are randomly but regularly monitored. Whenever any inappropriate use is detected it will be followed up.

- The school maintains students will have supervised access to Internet resources (where reasonable) through the school's fixed and mobile internet technology.
- Staff should preview any recommended sites before use.
- Raw image searches are discouraged when working with pupils.
- If Internet research is set for homework, specific sites will be suggested that have previously been checked by the teacher. It is advised that parents recheck these sites and supervise this work. Parents will be advised to supervise any further research.
- All users must observe software copyright at all times. It is illegal to copy or distribute school software or illegal software from other sources.
- All users must observe copyright of materials from electronic resources.

Infrastructure

- Hertfordshire Local Authority has a monitoring solution via the Hertfordshire Grid for Learning where web-based activity is monitored and recorded.
- School internet access is controlled through the LA's web filtering service. For further information relating to filtering please go to <http://www.thegrid.org.uk/eservices/safety/filtered.shtml>
- Our school also employs some additional web filtering which is the responsibility of Lorraine Redford
- Adeyfield School is aware of its responsibility when monitoring staff communication under current legislation and takes into account; Data Protection Act 1998, The Telecommunications (Lawful Business Practice) (Interception of Communications) Regulations 2000, Regulation of Investigatory Powers Act 2000, Human Rights Act 1998.
- Staff and pupils are aware that school based email and internet activity can be monitored and explored further if required.
- The school does not allow pupils access to internet logs.
- The school uses management control tools for controlling and monitoring workstations.
- If staff or pupils discover an unsuitable site, the screen must be switched off/ closed and the incident reported immediately to the e-safety co-ordinator.
- It is the responsibility of the school, by delegation to the network manager, to ensure that Anti-virus protection is installed and kept up-to-date on all school machines.

- Pupils and Staff using personal removable media are responsible for measures to protect against viruses, for example making sure that additional systems used have up-to-date virus protection software. It is not the school's responsibility nor the network manager's to install or maintain virus protection on personal systems.
- Personal devices attached to the network become part of the network and any inappropriate content may be viewed or removed by the network management team.
- Pupils and staff are not permitted to download programs or files on school based technologies without seeking prior permission from the network management team.
- If there are any issues related to viruses or anti-virus software, the network manager should be informed.

Managing other Web 2 technologies

Web 2, including social networking sites, if used responsibly both outside and within an educational context can provide easy to use, creative, collaborative and free facilities. However it is important to recognise that there are issues regarding the appropriateness of some content, contact, culture and commercialism. To this end, we encourage our pupils to think carefully about the way that information can be added and removed by all users, including themselves, from these sites.

- At present, the school endeavours to deny access to social networking sites to pupils within school.
- All pupils are advised to be cautious about the information given by others on sites, for example users not being who they say they are.
- Pupils are taught to avoid placing images of themselves (or details within images that could give background details) on such sites and to consider the appropriateness of any images they post due to the difficulty of removing an image once online.
- Pupils are always reminded to avoid giving out personal details on such sites which may identify them or where they are (full name, address, mobile/ home phone numbers, school details, IM/ email address, specific hobbies/ interests).
- Our pupils are advised to set and maintain profiles on such sites to maximum privacy and deny access to unknown individuals.
- Pupils are encouraged to be wary about publishing specific and detailed private thoughts online.
- Our pupils are asked to report any incidents of bullying to the school.
- Staff may only create blogs, wikis or other web 2 spaces in order to communicate with pupils using the LA Learning Platform or other systems approved by the Headteacher.
- Staff should not use school laptops to access personal social networking sites and other potentially high risk websites.

Mobile technologies

Many emerging technologies offer new opportunities for teaching and learning including a move towards personalised learning and 1:1 device ownership for children and young people. Many existing mobile technologies such as portable media players, PDAs, gaming devices, mobile and Smart phones are familiar to children outside of school too. They often provide a collaborative, well-known device with possible internet access and thus open up risk and misuse associated with communication and internet use. Emerging technologies will be examined for educational benefit and the risk assessed before use in school is allowed. Our school chooses to manage the use of these devices in the following ways so that users exploit them appropriately.

Personal Mobile devices (including phones)

- The school allows staff to bring in personal mobile phones and devices for their own use. Under no circumstances does the school allow a member of staff to contact a pupil or parent/ carer using their personal device.
- Pupils are allowed to bring personal mobile devices/phones to school but must not use them for personal purposes within lesson time. At all times the device must be switched onto silent.
- This technology may be used, however for educational purposes, as mutually agreed with the Headteacher. The device user, in this instance, must always ask the prior permission of the bill payer.
- The school is not responsible for the loss, damage or theft of any personal mobile device.
- The sending of inappropriate text messages between any member of the school community is not allowed.
- Permission must be sought before any image or sound recordings are made on these devices of any member of the school community.
- Users bringing personal devices into school must ensure there is no inappropriate or illegal content on the device.

School provided Mobile devices (including phones)

- The sending of inappropriate text messages between any member of the school community is not allowed.
- Permission must be sought before any image or sound recordings are made on the devices of any member of the school community.
- Where the school provides mobile technologies such as phones, laptops and PDAs for offsite visits and trips, only these devices should be used.
- Where the school provides a laptop for staff, only this device may be used to conduct school business outside of school.

Managing email

The use of email within most schools is an essential means of communication for both staff and pupils. In the context of school, email should not be considered private. Educationally, email can offer significant benefits including; direct written contact between schools on different projects, be they staff based or pupil based, within school or international. We recognise that pupils need to understand how to style an email in relation to their age and good 'netiquette'. In order to achieve ICT level 4 or above, pupils must have experienced sending and receiving emails.

- The school gives all staff their own email account to use for all school business. This is to minimise the risk of receiving unsolicited or malicious emails and avoids the risk of personal profile information being revealed.
- It is the responsibility of each account holder to keep the password secure. For the safety and security of users and recipients, all mail is filtered and logged; if necessary email histories can be traced. This should be the account that is used for all school business.
- Under no circumstances should staff contact pupils, parents or conduct any school business using personal email addresses.
- The school requires a standard disclaimer to be attached to all email correspondence, stating that, 'the views expressed are not necessarily those of the school or the LA'. The responsibility for adding this disclaimer lies with the account holder.
- E-mail sent to an external organisation should be written carefully before sending, in the same way as a letter written on school headed paper.
- Pupils may only use school approved accounts on the school system and only under direct teacher supervision for educational purposes.
- School email accounts are available to any students upon request.
- All e-mail users are expected to adhere to the generally accepted rules of network etiquette (netiquette) particularly in relation to the use of appropriate language and not revealing any personal details about themselves or others in e-mail communication, or arrange to meet anyone without specific permission, virus checking attachments.
- Pupils must immediately tell a teacher/ trusted adult if they receive an offensive e-mail.
- Staff must inform (the eSafety co-ordinator/ line manager) if they receive an offensive e-mail.
- Pupils are introduced to email as part of the ICT Scheme of Work.

Safe Use of Images

Taking of Images and Film

24/01/2011

- 12 -

Digital images are easy to capture, reproduce and publish and, therefore, misuse. We must remember that it is not always appropriate to take or store images of any member of the school community or public, without first seeking consent and considering the appropriateness.

- With the written consent of parents (on behalf of pupils) and staff, the school permits the appropriate taking of images by staff and pupils with school equipment.
- Staff are not permitted to use personal digital equipment, such as mobile phones and cameras, to record images of pupils, this includes when on field trips. However with the express permission of the Headteacher, images can be taken provided they are transferred immediately and solely to the school's network and deleted from the staff device.
- Pupils are not permitted to use personal digital equipment, including mobile phones and cameras, to record images of the others, this includes when on field trips. However with the express permission of the Headteacher, images can be taken provided they are transferred immediately and solely to the school's network and deleted from the pupils device.

Consent of adults who work at the school

- Permission to use images of all staff who work at the school is sought on induction and a copy is located in the personnel file

Publishing pupil's images and work

On a child's entry to the school, all parents/guardians will be asked to give permission to use their child's work/photos in the following ways:

- on the school web site
- on the school's Learning Platform
- in the school prospectus and other printed publications that the school may produce for promotional purposes
- recorded/ transmitted on a video or webcam
- in display material that may be used in the school's communal areas
- in display material that may be used in external areas, ie exhibition promoting the school
- general media appearances, eg local/ national media/ press releases sent to the press highlighting an activity (sent using traditional methods or electronically)

This consent form is considered valid for the entire period that the child attends this school unless there is a change in the child's circumstances where consent could be an issue, eg divorce of parents, custody issues, etc.

Parents/ carers may withdraw permission, in writing, at any time.

Pupils' names will not be published alongside their image and vice versa, unless specific permission has been gained from parents in writing. E-mail and postal addresses of pupils will not be published. Pupils' full names will not be published. Only the Web Manager has authority to upload to the site.

For further information relating to issues associated with School websites and the safe use of images in Hertfordshire schools, see <http://www.thegrid.org.uk/schoolweb/safety/index.shtml>

Storage of Images

- Images/ films of children are stored on the school's network
- Rights of access to this material are restricted to the teaching staff and pupils within the confines of the school network/ Learning Platform.

Webcams and CCTV

- The school uses CCTV for security and safety. Notification of CCTV use is displayed at the front of the school.
- We do not use publicly accessible webcams in school.
- Webcams in school are only ever used for specific learning purposes, i.e. monitoring hens' eggs and never using images of children or adults.
- Misuse of the webcam by any member of the school community will result in sanctions (as listed under the ' inappropriate materials' section of this document)

For further information relating to webcams and CCTV, please see <http://www.thegrid.org.uk/schoolweb/safety/webcams.shtml>

Video Conferencing

- Permission is sought from parents and carers if their children are involved in video conferences
- Permission is sought from parents and carers if their children are involved in video conferences with end-points outside of the school.
- All pupils are supervised by a member of staff when video conferencing
- All pupils are supervised by a member of staff when video conferencing with end-points beyond the school.
- The school keeps a record of video conferences, including date, time and participants.
- Approval from the Headteacher is sought prior to all video conferences within school.
- The school conferencing equipment is not set to auto-answer and is only switched on for scheduled and approved conferences.
- No part of any video conference is recorded in any medium without the written consent of those taking part.

Additional points to consider:

- Participants in conferences offered by 3rd party organisations may not be CRB checked.
- Conference supervisors need to be familiar with how to use the video conferencing equipment, particularly how to end a call if at any point any person taking part becomes unhappy with the content of the conference.

For further information and guidance relating to Video Conferencing, please see

<http://www.thegrid.org.uk/learning/ict/technologies/videoconferencing/index.shtml>

Draft

Misuse and Infringements

Complaints

Complaints relating to eSafety should be made to the eSafety co-ordinator or Headteacher. Incidents should be logged and the **Hertfordshire Flowcharts for Managing an eSafety Incident** should be followed (see appendix).

Inappropriate material

- All users are aware of the procedures for reporting accidental access to inappropriate materials. The breach must be immediately reported to the eSafety co-ordinator.
- Deliberate access to inappropriate materials by any user will lead to the incident being logged by the eSafety co-ordinator, depending on the seriousness of the offence; investigation by the Headteacher/ LA, immediate suspension, possibly leading to dismissal and involvement of police for very serious offences (see flowchart.)
- Users are made aware of sanctions relating to the misuse or misconduct by the eSafety co-ordinator, the Head of Year, the Head of ICT and the Network Manager.

Equal Opportunities

Pupils with additional needs

The school endeavours to create a consistent message with parents for all pupils and this in turn should aid establishment and future development of the schools' eSafety rules.

However, staff are aware that some pupils may require additional teaching including reminders, prompts and further explanation to reinforce their existing knowledge and understanding of eSafety issues.

Where a pupil has poor social understanding, careful consideration is given to group interactions when raising awareness of eSafety. Internet activities are planned and well managed for these children and young people.

Parental Involvement

We believe that it is essential for parents/ carers to be fully involved with promoting eSafety both in and outside of school. We regularly consult and discuss eSafety with parents/ carers and seek to promote a wide understanding of the benefits related to ICT and associated risks.

- Parents/ carers are asked to read through and sign acceptable use agreements on behalf of their child on admission to school.
- Parents/ carers are required to make a decision as to whether they consent to images of their child being taken/ used in the public domain (e.g., on school website)
- The school disseminates information to parents relating to eSafety where appropriate in the form of;
 - Information and celebration evenings
 - Posters
 - Website/ Learning Platform postings
 - Newsletter items
 - Learning platform training

Writing and Reviewing this Policy

Staff and pupil involvement in policy creation

- Staff and pupils have been involved in making/ reviewing the eSafety policy through school council, staff meetings

Review Procedure

There will be an on-going opportunity for staff to discuss with the eSafety coordinator any issue of eSafety that concerns them.

This policy will be reviewed every (12) months and consideration given to the implications for future whole school development planning.

The policy will be amended if new technologies are adopted or Central Government change the orders or guidance in any way.

This policy has been read, amended and approved by the staff, head teacher and governors on

Draft

Acceptable Use Agreements: Staff, Governors, Visitors and Students

Adeyfield School

Staff, Governor and Visitor Acceptable Use Agreement / Code of conduct

ICT and the related technologies such as email, the internet and mobile phones are an expected part of our daily working life in school. This policy is designed to ensure that all staff are aware of their professional responsibilities when using any form of ICT. All staff are expected to sign this policy and adhere at all times to its contents. Any concerns or clarification should be discussed with the school eSafety coordinator.

The school reserves the right to examine or delete any files that may be held on its computer system.

- I will only use the school's email / Internet / Intranet / Learning Platform and any related technologies for professional purposes or for uses deemed 'reasonable' by the Head or Governing Body.
- I will comply with the ICT system security and only access the network via the authorized username and password and will not disclose any passwords provided to me by the school or other related authorities.
- I will ensure that all electronic communications with pupils and staff are compatible with my professional role.
- I will only use the approved, secure email system(s) for any school business.
- I will ensure that personal data (such as data held on SIMS) is kept secure and is used appropriately, whether in school, taken off the school premises or accessed remotely.
- I will not browse, download or upload material that could be considered offensive or illegal.
- I will not send to pupils or colleagues material that could be considered offensive or illegal
- Images of pupils will only be taken and used for professional purposes and will not be distributed outside the school network without the permission of the parent/ carer.
- I understand that all my use of the Internet and other related technologies can be monitored and logged and can be made available, on request, to my Line Manager or Headteacher.
- I will respect copyright and intellectual property rights.
- I will support and promote the school's e-Safety policy and help pupils to be safe and responsible in their use of ICT and related technologies.
- I will not load any illegal or unauthorised software onto the network.

User Signature

I agree to follow this code of conduct and to support the safe use of ICT throughout the school

Signature Date

Full Name (printed)

Job title

Dear Parent/Guardian

As part of the school's ICT programme we offer pupils supervised access to the Internet. Before being allowed to use the Internet, all pupils must obtain parental permission and we would ask you to sign the attached form as evidence of your approval. Your son/daughter will also be required to sign the form agreeing to follow the school rules on this matter. Both signatures must be obtained before we can permit full access to the Internet.

Access to the Internet enables pupils to explore thousands of libraries and information sources across the world. Families should be warned that some material accessible via the Internet might contain items that are illegal, defamatory, inaccurate or potentially offensive to some people.

Whilst our aim for Internet use is to further educational goals and objectives, pupils may try to find ways to access other materials as well and it is possible that the determined might succeed. We have a number of filters and controls which have been successful so far, and we are able to log all internet activity. Our Internet Service Provider provides a carefully monitored and filtered service. We also have our own additional filters that enable us to immediately block offensive material if it should slip through.

We believe that the benefits to pupils from access to the Internet, in the form of information resources and opportunities for collaboration, exceed any disadvantages. But ultimately, parents and guardians of minors are responsible for setting and conveying the standards that their children should follow when using media and information sources. To that end, the school supports and respects each family's right to decide whether or not to apply for access. The school also reserves the right to withdraw this privilege at any time.

We would be grateful if you would read the Network rules and then complete the permission form that accompanies this letter.

Yours sincerely

Mr P Hepburn
Headteacher

Network Rules

(Main School)

Pupils are responsible for good behaviour on the Internet just as they are in a classroom or a school corridor. General School rules apply.

The Internet is provided for pupils to conduct research and communicate with others. Remember that access is a privilege, not a right and that access requires responsibility. Individual users of the Internet are responsible for their behaviour and communications over the network. It is presumed that users will comply with School standards and will honour the agreements they have signed.

Computer storage areas, removable storage media and electronic communications may be reviewed by staff to ensure that the users are using the system responsibly.

Users should not expect that files stored on servers or disks would always be private.

The School may withdraw access to the Internet at any time.

During school, teachers will guide pupils toward appropriate materials. Outside of school, families bear responsibility for such guidance as they must also exercise with information sources such as television, telephones, films, radio and other potentially offensive media.

The following are not permitted on the Network or any School computer:

- Using anonymous proxies to circumvent Grid security
- Sending, obtaining or displaying offensive messages or pictures.
- Using obscene language e.g. Swear words or other rude words.
- Harassing, insulting bullying or slanderously attacking others.
- Physically or electronically damaging computers, computer systems or computer networks.
- Violating copyright laws (e.g. copying from the internet and claiming it's your work) or entering sites promoting plagiarism.
- Using others' passwords or entering other users' folders, work or files or going on the internet, even with the other user's permission.
- Allowing others access to your area by not safeguarding your password or simply typing your password in for them.
- Printing anything that is not school work or excess pages from the internet without permission.
- Running programs which are not provided by or approved by the school. This includes any **games** which are not allowed **at any time**. (There are a few exceptions to this such as BBC Bitesize and school history games which may be used **with a teacher's permission**.)
- Buying, selling or running a business without written permission.(e.g. Ebay)
- Downloading MP3s, games or ringtones, streaming music and video. No unauthorised software may be loaded onto the network.
- Sending SMS (text messages) from the network to a phone or vice versa.
- Using any e-mail account other than the one provided by the school.
- Entering chat rooms or forum sites.

Sanctions

- Violations of the above rules will result in a temporary or permanent ban on Internet and even Network use. Parents may be involved in line with current school disciplinary practice.
- Additional disciplinary action may be added in line with existing practice on inappropriate language or behaviour.
- When applicable, police or local authorities may be involved.

Internet Permission Form

Please complete and return the whole form to the I.T. support staff.

24/01/2011

Student's Name _____ Form _____

Parent's section

As the parent or legal guardian of the student named above, I grant permission for my son or daughter to use electronic mail and the Internet. I have read and understood the Network Rules accompanying this form.

I understand that pupils will be held accountable for their own actions. I also understand that some materials on the Internet may be objectionable and I accept responsibility for setting standards for my daughter or son to follow when selecting, sharing and exploring information and media.

If required, I also give permission for my son/daughter's work to be published on a web site approved and controlled by the School. I understand that named images of pupils' will never be published.

Parent Signature _____ Date ___/___/___

Survey information

Please would you share this information with us so that we can try to improve the ICT service we provide and offer more support to you and your child in using the computer for schoolwork. This information will be used to provide us with statistics and it will not be stored in such a way that you could be personally identified.

	Yes	No
Do you own a computer which is regularly used?		
Is it less than 3 years old?		
Does your son/daughter have access to a computer to do homework?		
Do you have an Internet connection?		
Do you use e-mail regularly?		
Would you like the school to help you by providing classes, access to equipment or workshops to try to improve your skill level?		

Student's section

As a user of the School Network, I agree to comply with the school rules on its use. I will use the Network and the Internet in a responsible way and observe all the restrictions explained to me by the school and printed on the Network rules accompanying this form.

Student signature _____ Date ___/___/___

6th Form Network Rules

Pupils are responsible for good behaviour on the Internet just as they are in a classroom or a school corridor. General School rules apply.

The Internet is provided for pupils to conduct research and communicate with others. Remember that access is a privilege, not a right and that access requires responsibility. Individual users of the Internet are responsible for their behaviour and communications over the network. It is presumed that users will comply with School standards and will honour the agreements they have signed.

Computer storage areas, removable storage media and electronic communications may be reviewed by staff to ensure that the users are using the system responsibly.

Users should not expect that files stored on servers or disks would always be private.

The School may withdraw access to the Internet at any time.

The following are not permitted on the Network or any School computer:

- Using anonymous proxies to circumvent Grid security.
- Sending, obtaining or displaying offensive messages or pictures.
- Using obscene language e.g. Swear words or other rude words.
- Harassing, insulting bullying or slanderously attacking others
- Physically or electronically damaging computers, computer systems or computer networks.
- Violating copyright laws (e.g. copying from the internet and claiming it's your work) or entering sites promoting plagiarism.
- Using others' passwords or entering other users' folders, work or files or going on the internet, even with the other user's permission.
- Allowing others access to your area by not safeguarding your password or simply typing your password in for them.
- Printing anything that is not school work or excess pages from the internet without permission.
- Running programs which are not provided by or approved by the school. (This includes any **games** which are not allowed **at any time**. There are a few exceptions to this such as BBC Bitesize and school history games which may be used **with a teacher's permission**.)
- Buying, selling or running a business without written permission. (e.g. Ebay)
- Downloading MP3s, games or ringtones, streaming music and video. No unauthorised software may be loaded onto the network.
- Sending SMS (text messages) from the network to a phone or vice versa.
- Using any e-mail account other than the one provided by the school
- Entering chat rooms or forum sites

Please note: those points marked with a ➤ will be temporarily permitted when specifically required for an IT course. They must be used only for course purposes and not for personal use

Sanctions

- Violations of the above rules will result in a temporary or permanent ban on Internet and even Network use.
- Please note that if your course requires network use and access has been permanently removed you may be required to leave the course.
- When applicable, police or local authorities may be involved.

Student's section

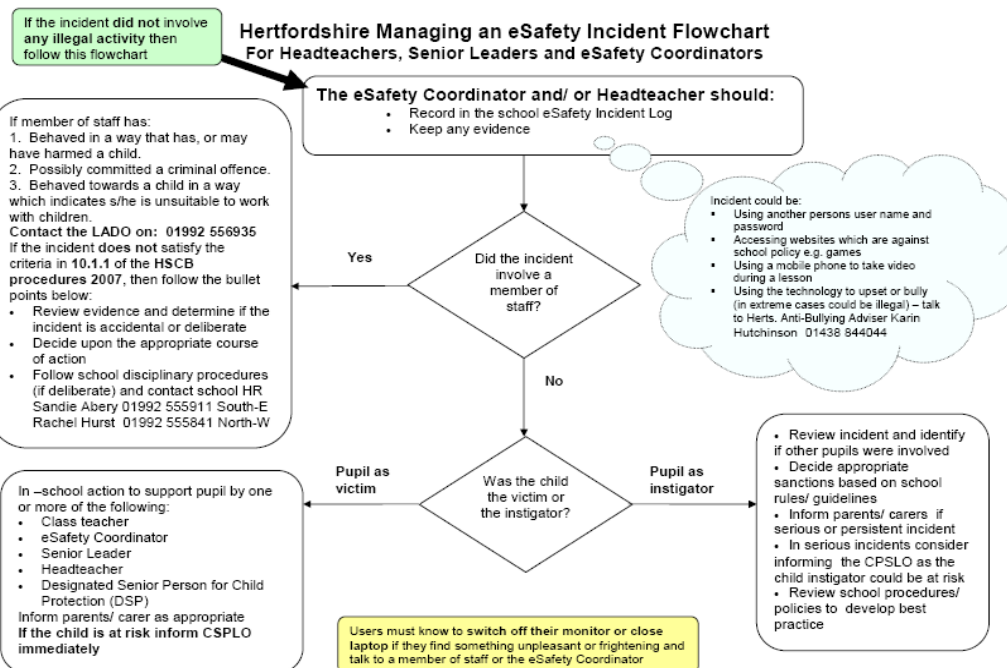

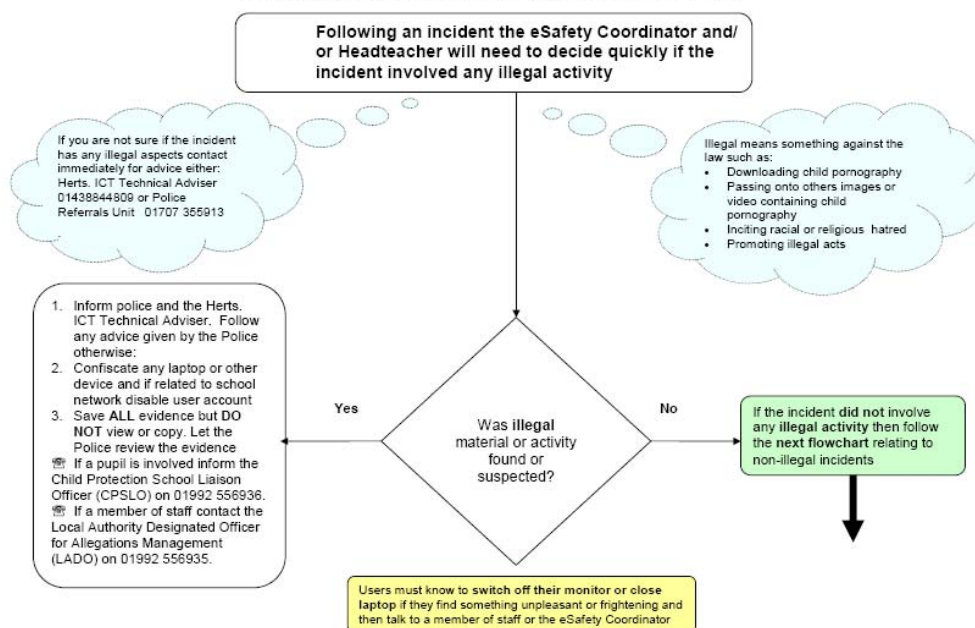

As a user of the School Network, I agree to comply with the school rules on its use. I will use the Network and the Internet in a responsible way and observe all the restrictions printed on this form.

Flowcharts for Managing an eSafety Incident

Hertfordshire Flowchart to support decisions related to an Illegal eSafety Incident
For Headteachers, Senior Leaders and eSafety Coordinators

Incident Log

'School name' eSafety Incident Log

Details of ALL eSafety incidents to be recorded by the eSafety Coordinator. This incident log will be monitored termly by the Headteacher, Member of SLT or Chair of Governors. Any incidents involving Cyberbullying should be recorded on the 'Integrated Bullying and racist Incident Record Form 2'

Date & time	Name of pupil or staff member	Male or Female	Room and computer/ device number	Details of incident (including evidence)	Actions and reasons

Smile and Stay Safe Poster

E-Safety Rules to be displayed next to all PCs in school

MILE and stay safe

Staying safe means keeping your personal details private, such as full name, phone number, home address, photos or school. Never reply to ASL (age, sex, location)

Meeting up with someone you have met online can be dangerous. Only meet up if you have first told your parent or carer and they can be with you.

Information online can be untrue, biased or just inaccurate. Someone online may not be telling the truth about who they are - they may not be a 'friend'

Let a parent, carer, teacher or trusted adult know if you ever feel worried, uncomfortable or frightened about something online or someone you have met or who has contacted you online.

Emails, downloads, IM messages, photos and anything from someone you do not know or trust may contain a virus or unpleasant message. So do not open or reply.

Current Legislation

Acts relating to monitoring of staff email

Data Protection Act 1998

The Act requires anyone who handles personal information to comply with important data protection principles when treating personal data relating to any living individual. The Act grants individuals rights of access to their personal data, compensation and prevention of processing.

<http://www.hmsso.gov.uk/acts/acts1998/19980029.htm>

The Telecommunications (Lawful Business Practice) (Interception of Communications) Regulations 2000

<http://www.hmsso.gov.uk/si/si2000/20002699.htm>

Regulation of Investigatory Powers Act 2000

Regulating the interception of communications and making it an offence to intercept or monitor communications without the consent of the parties involved in the communication. The RIP was enacted to comply with the Human Rights Act 1998. The Telecommunications (Lawful Business Practice) (Interception of Communications) Regulations 2000, however, permit a degree of monitoring and record keeping, for example, to ensure communications are relevant to school activity or to investigate or detect unauthorised use of the network. Nevertheless, any monitoring is subject to informed consent, which means steps must have been taken to ensure that everyone who may use the system is informed that communications may be monitored. Covert monitoring without informing users that surveillance is taking place risks breaching data protection and privacy legislation.

Other Acts relating to eSafety

Racial and Religious Hatred Act 2006

It is a criminal offence to threaten people because of their faith, or to stir up religious hatred by displaying, publishing or distributing written material which is threatening. Other laws already protect people from threats based on their race, nationality or ethnic background.

Sexual Offences Act 2003

The new grooming offence is committed if you are over 18 and have communicated with a child under 16 at least twice (including by phone or using the Internet) it is an offence to meet them or travel to meet them anywhere in the world with the intention of committing a sexual offence. Causing a child under 16 to watch a sexual act is illegal, including looking at images such as videos, photos or webcams, for your own gratification. It is also an offence for a person in a position of trust to engage in sexual activity with any person under 18, with whom they are in a position of trust. Schools should already have a copy of "Children & Families: Safer from Sexual Crime" document as part of their child protection packs.

For more information

www.teachernet.gov.uk

Communications Act 2003 (section 127)

Sending by means of the Internet a message or other matter that is grossly offensive or of an indecent, obscene or menacing character; or sending a false message by means of or persistently making use of the Internet for the purpose of causing annoyance, inconvenience or needless anxiety is guilty of an offence liable, on conviction, to imprisonment. This wording is important because an offence is complete as soon as the message has been sent: there is no need to prove any intent or purpose.

The Computer Misuse Act 1990 (sections 1 – 3)

Regardless of an individual's motivation, the Act makes it a criminal offence to gain:

- access to computer files or software without permission (for example using another person's password to access files)

- unauthorised access, as above, in order to commit a further criminal act (such as fraud)
- impair the operation of a computer or program

UK citizens or residents may be extradited to another country if they are suspected of committing any of the above offences.

Malicious Communications Act 1988 (section 1)

This legislation makes it a criminal offence to send an electronic message (e-mail) that conveys indecent, grossly offensive, threatening material or information that is false; or is of an indecent or grossly offensive nature if the purpose was to cause a recipient to suffer distress or anxiety.

Copyright, Design and Patents Act 1988

Copyright is the right to prevent others from copying or using work without permission. Works such as text, music, sound, film and programs all qualify for copyright protection. The author of the work is usually the copyright owner, but if it was created during the course of employment it belongs to the employer. Copyright infringement is to copy all or a substantial part of anyone's work without obtaining their author's permission. Usually a licence associated with the work will allow a user to copy or use it for limited purposes. It is advisable always to read the terms of a licence before you copy or use someone else's material. It is also illegal to adapt or use software without a licence or in ways prohibited by the terms of the software licence.

Public Order Act 1986 (sections 17 – 29)

This Act makes it a criminal offence to stir up racial hatred by displaying, publishing or distributing written material which is threatening. Like the Racial and Religious Hatred Act 2006 it also makes the possession of inflammatory material with a view of releasing it a criminal offence.

Protection of Children Act 1978 (Section 1)

It is an offence to take, permit to be taken, make, possess, show, distribute or advertise indecent images of children in the United Kingdom. A child for these purposes is anyone under the age of 18. Viewing an indecent image of a child on your computer means that you have made a digital image. An image of a child also covers pseudo-photographs (digitally collated or otherwise). A person convicted of such an offence may face up to 10 years in prison.

Obscene Publications Act 1959 and 1964

Publishing an "obscene" article is a criminal offence. Publishing includes electronic transmission.

Protection from Harassment Act 1997

A person must not pursue a course of conduct, which amounts to harassment of another, and which he knows or ought to know amounts to harassment of the other.

A person whose course of conduct causes another to fear, on at least two occasions, that violence will be used against him is guilty of an offence if he knows or ought to know that his course of conduct will cause the other so to fear on each of those occasions.
